Detailed Specification

Detailed Specification

Specifier's description

Re-chargable Lithium-ion Battery with universal tubular mounting clip. Steel casing with black nylon coating.

Construction	
Casing material	Steel
Coating	200µm polyester resin

Dimensions	
Length	115mm [4.5in]
Width	39mm [1.5in]
Height	154mm [6in]
Weight	0.9kg [2lbs]

Physical characteristics	
Input connector type	DC socket
Output connector type	Customised 2 pin XLR socket

Electrical characteristics	
Insulation Class	Class 3
Output voltage	18.75V DC
SELV (Safety Extra Low Voltage) output	YES

General	
Warranty	2 years
Part number	74Q47
Markings	CE
